

LAKEVIEW FARMERS' MARKET Non-Farm Vendor Application Form

The goal of the Lakeview Farmers' Market (the Market) is to enrich lives by providing access to vendors with organic or sustainably grown local produce and small batch products and provide an income opportunity for local farmers, producers and artisans.

By 'Non-Farm Vendors' the Market considers producers who primarily prepare or preserve food or other products raised by other Market vendors (wherever possible) or others for consumption. Vendors in this category produce small batch baked goods, preserves, condiments, raw and fermented foods, maple syrup, honey, chocolate, cheese, beverages and unique hand-made (by vendor) artisan items not generally available through retail outlets.

Business Name: _____

Business Registration Number: _____
